PROFESSIONAL SUMMARY

Creative technologist specializing in AI and data engineering, driven by a passion for building privacy-first and sustainable software. Combines a deep technical toolkit in machine learning, Python, and Java with a hands-on, collaborative approach to solving modern technical challenges.

ACADEMICS

Master’s Degree(PG) , <i>Alliance University</i> Sem 1 SGPA-(9.2) Sem 2 SGPA-(8.4)	2027
Bachelor’s Degree(UG) , <i>Christ College of Science and Management</i> 8.6	2025
HSC (CBSE) , <i>Maharishi Vidya Mandir</i> 67.2 %	2022
SSLC (CBSE) , <i>Maharishi Vidya Mandir</i> 67.78 %	2020

TECHNICAL SKILLS

AI & Machine Learning: Predictive Modeling, Agentic AI (CrewAI), Deep Learning, NLP | **Data Engineering & Analytics:** Python (Pandas, NumPy, Scikit-learn, Matplotlib), R, SQL (MySQL), Cassandra, Power BI, Big Data Modeling & Computing | **Programming & Web Stack:** Java, C, Django, Streamlit, HTML5, CSS3, Figma, UI/UX Design | **Cloud & Operations:** Linux, Git, GitHub, CI/CD, Cloud Computing

CERTIFICATIONS

Advanced Data Structures and Algorithms (Packt) | Cloud Computing - IIT Kharagpur (NPTEL ELITE) | Python GUI Development: Design & Build Apps (EDUCBA) | Introduction to Databases (META) | Introduction to Front-End Development (META) | User Interface Design and Prototyping (MICROSOFT) | Machine Learning with Python & Statistics (EDUCBA) | Data Analysis with Python (IBM) | Big Data Computing - IIT Kanpur (NPTEL ELITE) | Java programming for Beginners (IBM) | Introduction to Internet of Things - IIT Kharagpur (NPTEL ELITE)

LEADERSHIP & ACHIEVEMENTS

- Volunteer**
- Arts and Cultural Secretary (Science Association of Christ College)
 - Technical Director (Women Empowerment Cell)
 - Peer Counsellor (CCSM)
- Awards**
- Poem Writing (Tamil) - Runner
 - ilam Manichemmal viruthu
 - kavicharal Manichemmal viruthu

PROJECT SHOWCASE

- CipherStream Pro**
Hybrid cryptographic application seamlessly bridging a high-performance Java backend with a dynamic Streamlit data science frontend
- Echo Agent**
Autonomous AI podcasting system utilizing a "digital twin" to generate high-quality, fully researched audio content without manual recording
- SafeVault Analytics**
Privacy-first data analytics platform designed to solve real-world health and safety dilemmas without compromising sensitive user information
- AI Water Forecasting**
Decision Support System leveraging XGBoost to predict institutional water usage, optimizing pump schedules to actively reduce CO2 emissions
- Stock Price Forecaster**
Trained a Random Forest model to automatically fetch market data and reliably predict five-day stock movements for major Indian banks.
