## PROFESSIONAL SUMMARY

MCA Data Science student (CGPA 8.5) applying for the Technical Writer Intern role. Writes README files, how-to guides and Markdown documentation, and works in Git and GitHub (clone, branch, commit, pull request). Uses AI tools such as Claude to draft and edit content, then verifies the output for accuracy. Documented 2 GitHub projects: Echo Agent, a CrewAI multi-agent system (agent roles, tasks, workflow), and CipherStream Pro (setup, usage, examples). Completed four technical writing courses, including API writing and technical communication in the AI era. Bilingual writer (English and Tamil) with a data and database background, focused on explaining technical detail simply and accurately.

## SKILLS

**Technical Writing and Documentation:** Technical writing, user documentation, API documentation, README files, how-to guides, Markdown, YAML, JSON, docs-as-code, terminology and style consistency, content editing and QA
**Workflow and Tools:** Git, GitHub (clone, branch, commit, pull request), version control, Jupyter Notebook, Google Colab, PyCharm, VS Code
**AI Tools:** AI-assisted drafting and editing with Claude, prompt engineering, output verification, agentic AI (CrewAI)
**Data and Programming:** Python (Pandas, NumPy, Scikit-learn, XGBoost, Matplotlib), Streamlit, SQL (MySQL), Power BI, Django, Java
**Data Concepts:** Big Data, cloud computing, relational databases, SQL queries, automated data and AI pipelines
**Soft Skills:** Technical communication, data-driven decision making, project ownership, async collaboration

## PROJECTS

**Echo Agent** | Python, CrewAI, ElevenLabs | GitHub repository

- Documented agent roles, tasks and workflow in Markdown so other developers can understand and run the system.
- Built a multi-agent CrewAI pipeline that automates research, scriptwriting and voice synthesis for full podcast episodes, cutting manual production time by 95%.

**CipherStream Pro** | Java, Python, Streamlit | GitHub repository

- Wrote the README covering setup, installation, usage and examples for a hybrid cryptography application.
- Built a Java backend with a Streamlit data science frontend, designed to go beyond basic English text handling.

**AI Water Demand Forecasting** | Python, XGBoost | GitHub repository

- Built an XGBoost model to forecast campus water demand, paired with a smart pumping decision support system that helped reduce campus energy costs by 18%.

## INTERNSHIP

**Web Developer Intern** | JRMInfotech | Jan 2025 (4 weeks)

- Developed full-stack features in Python and Django, including backend logic and database integration.
- Worked with databases and APIs to design backend logic supporting scalable application development.
- Collaborated with team members to build, test and debug modules; took part in code reviews and troubleshooting to improve application quality, performance and reliability.

## EDUCATION

**Alliance University, Bangalore** | Master of Computer Applications (Data Science) | Oct 2025 – May 2027 | CGPA: 8.5
**Christ College of Science and Management, Karnataka** | B.Sc. Computer Science | Aug 2022 – Apr 2025 | CGPA: 8.6

## CERTIFICATIONS

- Business Writing & Technical Writing Immersion (Starweaver), 2026
- Technical Communication in the AI Era Specialization (Minnesota State University, Mankato), 2026
- Document AI: Project & API Writing (Coursera), 2026
- Writing Effective Technical Documentation (Board Infinity), 2026
- Big Data Computing, IIT Kanpur (NPTEL Elite)
- Cloud Computing, IIT Kharagpur (NPTEL Elite)
- Introduction to Databases, Meta

## LEADERSHIP AND COMMUNICATION

- **Peer Counsellor**, Christ College of Science and Management: gave one-on-one guidance to peers, adapting explanations to individual needs.
- **Technical Director**, Women Empowerment Cell
- **Arts and Cultural Secretary**, Science Association, Christ College
- **Tamil Poetry:** runner-up, Tamil poem writing; recipient of the Ilam Manichemmal Viruthu and Kavicharal Manichemmal Viruthu.
